

NANO-RAPID TACTICAL OPERATIONS CENTER

Part Number AV-S01SD60 | AV-S01SD100

Rapid setup/strike display system with single display projection system

ISO 9001:2008 Registered Company

The nano Rapid Tactical Operations Center (nRTOC) is an ultra-portable display system for mobile, front-line operations. These displays are ideal platforms for battle command software and incident response applications.

Key Features and Benefits

- Ultra-portable, rugged display system for mobile operations
- Support front or rear projection for greater flexibility in set-up
- Set up as single units or position side by side to create large display walls
- Display systems support features like Quadview images and interactive, collaborative technologies
- Components erect upon and pack inside a single, rugged, aluminum case
- Case design meets US military transit and vibration standards

Standard Components

- Ultra-portable, rugged display system
- Single display projection system consisting of lightweight, aluminum frame set
- 60" diagonal screen
- One 1024 x 768 (XGA) DLP, ultra short throw projector
- Power cord

AV-S01SD60 Specifications

RTOC w/60" diagonal screen

Packaged Dimensions	34.25 x 31 x 11.5"	(.86 x .78 x .29 m)
Deployed Dimensions	52 x 36 x 74.4"	(2.1 x 1.1 x 2.4 m)
Cube	6.75 ft ³	(.19 m ³)
Weight	72 lbs	(32.6 kg)

AV-S01SD100 Specifications

RTOC w/100" diagonal screen

Packaged Dimensions	34.25 x 31 x 11.5"	(.86 x .78 x .29 m)
Deployed Dimensions	84 x 44 x 95"	(2.1 x 1.1 x 2.4 m)
Cube	6.75 ft ³	(.19 m ³)
Weight	95 lbs	(43 kg)
